

CT SnuffAir

An inflatable spinnaker retrieval system suitable for yachts 50ft upwards

Advantages

- deflated quickly and dropped down the fore hatch
- no restrictions on the hatch size
- significant space saving below deck, deflated & packed away
- safe to operate, release valve prevents over inflating
- improved crew safety, no hard edges swinging above deck
- prevents damage to mast, rig, spinnaker, paintwork & deck gear
- light and easy to use

Key Features

- CT SnuffAir consists of a strong inflatable bladder inside a spectra chafe-guard, attached to a spinnaker sock with strong zips
- Supplied with a control-line pocket made from a material with excellent anti-burn properties, preventing damage to the sock and spinnaker
- Supplied with an inflation connector with ¼ inch bsp thread
- Complete system available or retrofitted to an existing sock
- Available world-wide in three sizes or custom made
